EDUCATION

University of Illinois Chicago, Chicago, Illinois USA
Ph.D. Candidate, Economics 2017 - (expected graduation year: 2023)
M.A Economics, 2019

United Nations University - WIDER, Helsinki, Finland
Visiting PhD Fellow, April - June, 2022

University of Hyderabad, Hyderabad, Telangana, India
M.A Economics, 2013

St.Stephen's College, University of Delhi, Delhi, India
B.A (Hons.) Economics, 2010

JOB MARKET PAPER

“Impact Of School Consolidation On Enrollment and Achievement: Evidence From India”
I study the impact of school consolidation on enrollment and achievement, using its staggered roll out in the Indian state of Rajasthan. Across the years 2014, 2016 and 2017, Rajasthan merged many of its grade 1-5 schools to grade 6-10 schools to create grade 1-10 ‘model’ schools. 23% of the government schools got eliminated in the process. Media reports suggested that consolidation led to declining enrollment levels and teacher layoffs. Combining the government orders on consolidation and administrative data on schools, I rule out that consolidation had a negative impact on enrollment or number of teachers. I find that consolidation decreased the number of schools in a village by one, increased the proportion of children studying in a school with a principal by 0.1 and increased the number of teachers in a village by 0.7. I also find that consolidation increased school enrollment in a village by 2%, in particular girls’ enrollment by 2%. I further show that consolidation decreased the proportion of high scorers among grade 5 students by 0.08 and did not decrease the proportion of high scorers among grade 8 students by more than 0.02.
